16. Parents always easily control teenagers' social media use. → **✗ False**
17. Snapchat is used by most teenagers. → **✓ True**

Teil E: Short Answer

18. **One negative effect:**

👉 Addiction / sleep problems / reduced concentration / mental health issues (any 1)

19. **Why difficult for parents:**

👉 Because teenagers depend on social networks / it is a “losing battle” / their whole social life is online

Bonus (Opinion – model answer)

20. Example answer:

👉 Yes, I think social media companies should be regulated more strictly because teenagers are exposed to harmful content and algorithms keep them online too long. However, some people may argue that regulation limits freedom of speech.
